

Lake Saint Louis Comprehensive Plan NEWSLETTER

Fall 2016

Community's Ideas Jump Start the Comprehensive Plan

The planning team began work in late summer and greatly appreciates the community's enthusiastic participation in the process. Activities to date have included focus groups with the Chamber of Commerce, homeowners associations and others; a visit to Green Tree Elementary on Back-to-school night to engage busy parents and their children; a community wide survey (available through October 31); and the first of four public open houses.

This phase of work also includes important information gathering by the planning team into existing conditions related to demographics, housing, transportation and economic development. Highlights of this initial fact finding were presented at the open house on Tuesday, October 18 at Lake Saint Louis City Hall. Sixty-eight residents attended the meeting to learn more about the plan and talk to city officials and members of the planning team. Meeting displays can be viewed on the project website, www.myfuturelakesaintlouis.com.

Community Survey - Final Days

Be sure to take the citywide survey by October 31st. It can be completed in 5-10 minutes, www.surveymonkey.com/r/LakeSaintLouis.

Paper copies are also available at City Hall.

Attendees share what they love about living in Lake Saint Louis during Back-to-school night at Green Tree Elementary.

Hawk Ridge home owner association meeting.

Attendees view displays during Open House #1 at City Hall.

About the Comprehensive Plan

The purpose of a comprehensive plan is to anticipate and manage future growth in a way that supports a community's vision for the future. Once complete, the Plan will be a strategic guide for decision-making related to land use and physical development over the next 20 years. The planning process, which began in late summer 2016, includes many opportunities for the public to be involved. The plan will be completed in fall 2017.

"We have just started the overall planning process," said Kathy Schweikert, Mayor of Lake Saint Louis. "Initial activities are designed to give residents a chance to learn more about the planning process and share their thoughts about the vision for the City."

Stay Involved

- Use the online mapping tool at www.myfuturelakesaintlouis.com to make location-specific suggestions.
- Attend our next open house in late January 2017.
